

Waxed Paper Raw Material Specification.

Date: 22/03/2013

This is to confirm that the waxed paper supplied is suitable for direct contact with foodstuffs, and that its components are in conformity with the following Legislation.

Paper

Our standard paper is pure 40gsm opacified bleached kraft calendared paper, other grades are available, but all comply with the following legislation .

Germany: BfR recommendation XXXV1

USA: FDA Title 21 part 176.180 and 176.170.

Wax

Our standard wax is a blended wax of food packaging quality which has been formulated as a paper coating wax which is heat sealable , provides good gloss properties and is functional. The regulations listed are concerned with hard paraffins, microcrystalline waxes and their blends with waxes, resins and plastic materials in food contact applications and is compliant with the following legislation.

USA: FDA – Code of federal Regulations, sections 175.105 and 176.170 and 176.180.

Wax is not subject to Migratory testing. See

www.inchem.org/documents/jecfa/jecmono/v30je14.htm

Ink

Our inks are formulated using raw materials selected according to the selection criteria mentioned in the CEPE 1 “Exclusion list for printing inks and related products” (version Sept 2001) and according to the Dangerous Substances Directive 67/548/EC contains no heavy materials. It also complies with:

EC: 2023/2006

EC: European and Packaging Waste Directive 94/62/EC

EC: Plastics and other materials in contact with food regulations 2006 (SI No 139 of 2006)

EC: Directive 89/09, 1935/2004/12/EC, 94/62/EC, 80/590/EC, 89/109/EC.

All materials and sub ingredients used in the manufacture of our products and raw materials are not of animal origin and do not contain any sulphite or Sulphite derivatives and procedure are in place to ensure that they are allergen free.

Our products are designed for food packaging. They satisfy all the correct criteria for direct contact with food. They are sold for this purpose only. They are not designed to be reused, ingested or post treated in the presence of food or any other environment.

This product is recyclable and compostable. Please check with local area Councils for preferred method of disposal.
